8. Write the following passage in Odia. [18]

What happened in our Parliament last Thursday is very sad. Our MPs were fighting like street thugs (*gundas*). How can they make rules for our country when they do not obey rules themselves? Recently one minister of our country from Bihar went to jail. Many people still consider him a leader. Why do we elect such bad people? How can our country progress with such people? When voting for our parliament we should stop thinking about our state. We must think about our country and vote for India's future.
9. Read the following passage and answer the questions below: [12]

The Internet (ଇଣ୍ଟରନେଟ) connects computers around the world. Computers connected to the Internet can exchange information such as messages, examination results, music, and videos. Cell phones and TVs can also be connected to the Internet. The connection can be made using wires like telephone lines or optical fibers. It can also be wireless. An optical fiber is like a wire made from glass, and it is as thin as our hair. Computers talk to one another using binary communication, which means talking with two signals. If you study at Rtapalli you will do some of your mathematics homework using the Internet.

  - a) Is it correct to say that only computers can be connected to the Internet? Explain your answer.
  - b) What does binary communication mean?
  - c) Do you think the Internet can be used for education? Explain your answer.
  - d) What is an optical fiber?
  - e) How many types of Internet connections are discussed above?
  - f) Is it possible to waste your time using the Internet? Explain your answer.
